Dogtests(tm) Open Registry

Subscriber Application Form

Dogtests(tm) Open Registry is a service offered to serious enthusiasts who seek an effective adjunct to the closed health registries of major canine health organizations which affirm only dogs that pass specific health examinations.

Dogtests(tm) allows subscribers to post a dog's entire health test history for as many as 4 specific conditions, both passes and failures. This allows subscribers to follow entire litters over time and be alerted to the appearance of important health concerns that may manifest at any age.

Because this information is sensitive, accuracy and timeliness are very important. Practical breed decisions, such as the choice of prospective mates or how to raise a pup, and the ability to trace the pedigree path of genetic diseases both depend upon the data in this database being valid.

Upon subscription, you will receive a confidential identifier ("Dogtag") which will be required whenever you submit health test data. Data submitted without this identifier will not be posted to the ***Dogtests(tm)*** database. You are responsible for any data submitted using your identifier. Therefore do not disclose your "Dogtag" to anyone else. If the confidentiality of your "Dogtag" has been compromised, you should alert us immediately by email at **Dogtags@healthydogs.com** and request another.

INTERNET ACCESS IS HELPFUL BUT NOT NECESSARY in order to submit data to the ***Dogtests(tm)*** database. But, ACCESS TO A COMPUTER WITH A PRINTER IS REQUIRED. And you also need ACROBAT READER software (**Version 4.0 or higher**) which you can get either through us or via download from http://www.Adobe.com (it's free). Most new computers come with it already installed.
NOTE - Versions earlier than 4.0 will not work correctly with our Data Submission Form.

It's really very easy - Here's all you do! -

To Submit Health Test Data - You just open up and fill in the health test information on our Data Submission Form (we provide) USING YOUR COMPUTER, print out the completed form on your own printer, sign it and drop in the mail. Upon receiving your form, we verify your "Dogtag" and update the ***Dogtests(tm)*** database with the new information.

To Review *Dogtests(tm)* Data - We crunch the data and post it in a searchable, easy-to-read format that shows the health test history for every dog in the registry. The information is protected by passwords known only to valid subscribers to ***Dogtests(tm)***. An example of this unique report using dummy data is attached to this application form. Note the proprietary use of traffic light colors to quickly indicate "go", "caution" or "stop" to aid your interpretation. The READER allows you to instantly locate records for any particular dog in ***Dogtests(tm)***.

The Legal Stuff -

My signature below indicates that I agree to the following:

a) I will submit to Dogtests health information only on dogs for which I have responsibility.
b) I will submit to Dogtests only true health test information of which I have direct verifiable knowledge.
c) By submitting health information to Dogtests, I am making the information available to the public and reserve no rights to its confidentiality. I understand it will be published.
d) I take complete responsibility for any use I make of information obtained from Dogtests.. I recognize the uncertain nature of posted health information and hold Dogtests or its agents harmless as to my use of it.
e) I am solely responsible for the use of my Dogtests ID ("Dogtag") and agree not to disclose it to others. If others should learn of it, I will notify Dogtests immediately and request another.
